

K-Love serves me and the surrounding communities of Greensboro NC in many ways. It is the way I get information on local Christian church happenings and christian concerts. It has the strongest signal of any other Christian radio station and has no commercials - which I do not like to hear. The air waves are filled with talk radio and other types of music but this station is the only Christian station around - it is also the only SAFE station for my children to listen to. I always have to worry about what is being said or played on other stations. It would be a SHAME if this station was displaced by a secular station. I would just listen to my cd's.
